## Inspection of boats for condition and function Checking gassystems for boat and campervan

Boote-check (Boat Check) offers you **qualified inspection of boats** for condition and function by **officially certified experts** sworn to impartiality.

Whether you are a boat owner who just wants to know the condition of your boat, contemplating buying a boat and want its technical condition checked, or an insurance professional who needs a potential customer's boat evaluated, Boat Check guarantees you qualified technical investigations by our government certified staff, or if the **gassystem of your boat or Camper** must be **checked according european standards**.

**Do not forget:** Every owner has the duty to have his mobile gas installation tested and certified **every 2 years!**

We'll check your boat **all over Europe** – you're ready to cast off!
